# DRUG AND ALCOHOL DEPENDENCE

## SUBJECT INDEX

## Volume 26 (1990)

adolescents, alcohol prevention, 227
adolescents, drug abuse, experimenting, 189
age, sialic acid, glycolipids, glycoproteins, ethanol, 29
AIDS, consumption, prostitution, clients, alcohol, drugs, 265
AIDS, HIV risk behaviour, intravenous drug abuse, substance abuse, antisocial personality disorder, 39
alcohol, consumption, AIDS, prostitution, clients, drugs, 265
alcohol, epidemiology, youth, psychotropics, narcotics, tobacco, Egypt, 63
alcohol, HDL subfractions, lipoproteins, apolipoproteins, 161
alcohol, self-reported hypertension, blood pressure, gender differences, prevention, survey research, epidemiology, 235
alcoholics, erythrocytes, gangliosides, detoxification, 89
alcoholism, cocaine, substance abuse, liver function tests, hepatotoxicity, 169
alcoholism, liver histomorphometry, trace elements, mice, 195
alcoholism, substance use disorders, therapy, methods, history, clinical trials, 81
alcohol advertisments, attitudes, Jews, Arabs, Israel, 209
alcohol beliefs, drinking motivations, problem drinking, 175
alcohol dependence, methamphetamine dependence, personality trait, platelet MAO activity, 251
alcohol prevention, adolescents, 227
alcohol problems, alcohol treatment, treatment entry, 93
alcohol treatment, alcohol problems, treatment entry, 93
alcohol withdrawal, potassium, epinephrine, norepinephrine, cyclic AMP, 183
antidepressants, substitution, dependence, rats, barbiturates, depressants, stimulants, 9
antisocial personality disorder, HIV risk behaviour, AIDS, intravenous drug abuse, substance abuse, 39
apolipoproteins, alcohol, HDL subfractions, lipoproteins, 161
Arab, drug misuse, attitude, Muslim, Kuwait, 55
Arabs, alcohol advertisments, attitudes, Jews, Israel, 209
attitude, drug misuse, Muslim, Kuwait, Arab, 55
attitudes, alcohol advertisments, Jews, Arabs, Israel, 209

baboon, 4-methylaminorex, self-administration, rhesus monkey, stimulant abuse, 137
barbiturates, substitution, dependence, rats, depressants, stimulants, antidepressants, 9
blood, cocaine, crack, self-administration, cardiovascular rate, subjective effects, human, 145
blood pressure, alcohol, self-reported hypertension, gender differences, prevention, survey research, epidemiology, 235
buprenorphine, heroin addiction, drug therapy, 19

cardiovascular rate, cocaine, crack, self-administration, blood, subjective effects, human, 145
chronic unemployment, methadone clients, risk characteristics, 117
cigarettes, craving, opiates, 85
cigarettes, flavor, cigarette substitutes, tobacco, smoking, smoking cessation, menthol, 155
cigarette substitutes, flavor, tobacco, cigarettes, smoking, smoking cessation, menthol, 155
clients, consumption, AIDS, prostitution, alcohol, drugs, 265
clinical trials, alcoholism, substance use disorders, therapy, methods, history, 81
cocaine, crack, self-administration, cardiovascular rate, blood, subjective effects, human, 145
cocaine, epidemiology, drug abuse, 217
cocaine, substance abuse, alcoholism, liver function tests, hepatotoxicity, 169
cocaine and tricyclic antidepressants, cocaine self-administration, desipramine effects on, food self-administration, cocaine effects on, desiprimine effects on, desipramine treatment, 103
cocaine effects on, cocaine self-administration, desipramine effects on, food self-administration, desiprimine effects on, desipramine treatment, cocaine and tricyclic antidepressants, 103
cocaine self-administration, desipramine effects on, food self-administration, cocaine effects on, desiprimine effects on, desipramine treatment, cocaine and tricyclic antidepressants, 103
consumption, AIDS, prostitution, clients, alcohol, drugs, 265
consumption, tobacco products, Nigeria, 203
crack, cocaine, self-administration, cardiovascular rate, blood, subjective effects, human, 145
craving, opiates, cigarettes, 85

cyclic AMP, alcohol withdrawal, potassium, epinephrine, norepinephrine, 183

dependence, substitution, rats, barbiturates, depressants, stimulants, antidepressants, 9
depressants, substitution, dependence, rats, barbiturates, stimulants, antidepressants, 9
desipramine effects on, cocaine self-administration, food self-administration, cocaine effects on, desiprimine effects on, desipramine treatment, cocaine and tricyclic antidepressants, 103
desipramine treatment, cocaine self-administration, desipramine effects on, food self-administration, cocaine effects on, desiprimine effects on, cocaine and tricyclic antidepressants, 103
desiprimine effects on, cocaine self-administration, desipramine effects on, food self-administration, cocaine effects on, desipramine treatment, cocaine and tricyclic antidepressants, 103
detoxification, alcoholics, erythrocytes, gangliosides, 89
drinking, drinking-related behavior, sex roles, Mexico, 45
drinking-related behavior, drinking, sex roles, Mexico, 45
drinking motivations, alcohol beliefs, problem drinking, 175
drugs, consumption, AIDS, prostitution, clients, alcohol, 265
drug abuse, adolescents, experimenting, 189
drug abuse, cocaine, epidemiology, 217
drug abuse, epidemiology, risk factors, 35
drug misuse, attitude, Muslim, Kuwait, Arab, 55
drug therapy, buprenorphine, heroin addiction, 19

Egypt, epidemiology, youth, psychotropics, narcotics, alcohol, tobacco, 63
epidemiology, alcohol, self-reported hypertension, blood pressure, gender differences, prevention, survey research, 235
epidemiology, cocaine, drug abuse, 217
epidemiology, drug abuse, risk factors, 35
epidemiology, youth, psychotropics, narcotics, alcohol, tobacco, Egypt, 63
epinephrine, alcohol withdrawal, potassium, norepinephrine, cyclic AMP, 183
erythrocytes, alcoholics, gangliosides, detoxification, 89
ethanol, rats, muscle myopathy, protein synthesis, skeletal muscle, smooth muscle, protein turnover, 1
ethanol, sialic acid, glycolipids, glycoproteins, age, 29
experimenting, adolescents, drug abuse, 189

flavor, cigarette substitutes, tobacco, cigarettes, smoking, smoking cessation, menthol, 155
food self-administration, cocaine self-administration, desipramine effects on, cocaine effects on, desiprimine effects on, desipramine treatment, cocaine and tricyclic antidepressants, 103

gangliosides, alcoholics, erythrocytes, detoxification, 89
gender differences, alcohol, self-reported hypertension, blood pressure, prevention, survey research, epidemiology, 235
glycolipids, sialic acid, glycoproteins, ethanol, age, 29
glycoproteins, sialic acid, glycolipids, ethanol, age, 29

HDL subfractions, alcohol, lipoproteins, apolipoproteins, 161
hepatotoxicity, cocaine, substance abuse, alcoholism, liver function tests, 169
heroin addiction, buprenorphine, drug therapy, 19
history, alcoholism, substance use disorders, therapy, methods, clinical trials, 81
HIV risk behaviour, AIDS, intravenous drug abuse, substance abuse, antisocial personality disorder, 39
human, cocaine, crack, self-administration, cardiovascular rate, blood, subjective effects, 145

intravenous drug abuse, HIV risk behaviour, AIDS, substance abuse, antisocial personality disorder, 39
Israel, alcohol advertisments, attitudes, Jews, Arabs, 209

Jews, alcohol advertisments, attitudes, Arabs, Israel, 209

Kuwait, drug misuse, attitude, Muslim, Arab, 55

lipoproteins, alcohol, HDL subfractions, apolipoproteins, 161
liver function tests, cocaine, substance abuse, alcoholism, hepatotoxicity, 169
liver histomorphometry, alcoholism, trace elements, mice, 195

menthol, flavor, cigarette substitutes, tobacco, cigarettes, smoking, smoking cessation, 155
metabolism, 3,4-methylenedioxyamphetamine, *N*-methyl-3,4-methylenedioxyamphetamine, *α*-methyldopamine, 127
methadone clients, chronic unemployment, risk characteristics, 117
methadone maintenance, polydrug abuse, skin conductance response, 199
methamphetamine dependence, alcohol dependence, personality trait, platelet MAO activity, 251
methods, alcoholism, substance use disorders, therapy, history, clinical trials, 81
4-methylaminorex, self-administration, baboon, rhesus monkey, stimulant abuse, 137
*α*-methyldopamine, 3,4-methylenedioxyamphetamine, *N*-methyl-3,4-methylenedioxyamphetamine, metabolism, 127
3,4-methylenedioxyamphetamine, *N*-methyl-3,4-methylenedioxyamphetamine, metabolism, *α*-methyldopamine, 127
Mexico, drinking, drinking-related behavior, sex roles, 45
mice, alcoholism, liver histomorphometry, trace elements, 195
muscle myopathy, ethanol, rats, protein synthesis, skeletal muscle, smooth muscle, protein turnover, 1
Muslim, drug misuse, attitude, Kuwait, Arab, 55

*N*-methyl-3,4-methylenedioxyamphetamine, 3,4-methylenedioxyamphetamine, metabolism, α-methyldopamine, 127
narcotics, epidemiology, youth, psychotropics, alcohol, tobacco, Egypt, 63
Nigeria, tobacco products, consumption, 203
norepinephrine, alcohol withdrawal, potassium, epinephrine, cyclic AMP, 183

opiates, craving, cigarettes, 85
personality trait, alcohol dependence, methamphetamine dependence, platelet MAO activity, 251
platelet MAO activity, alcohol dependence, methamphetamine dependence, personality trait, 251
polydrug abuse, methadone maintenance, skin conductance response, 199
potassium, alcohol withdrawal, epinephrine, norepinephrine, cyclic AMP, 183
prevention, alcohol, self-reported hypertension, blood pressure, gender differences, survey research, epidemiology, 235
problem drinking, alcohol beliefs, drinking motivations, 175
prostitution, consumption, AIDS, clients, alcohol, drugs, 265
protein synthesis, ethanol, rats, muscle myopathy, skeletal muscle, smooth muscle, protein turnover, 1
protein turnover, ethanol, rats, muscle myopathy, protein synthesis, skeletal muscle, smooth muscle, 1
psychotropics, epidemiology, youth, narcotics, alcohol, tobacco, Egypt, 63

rats, ethanol, muscle myopathy, protein synthesis, skeletal muscle, smooth muscle, protein turnover, 1
rats, substitution, dependence, barbiturates, depressants, stimulants, antidepressants, 9
rhesus monkey, 4-methylaminorex, self-administration, baboon, stimulant abuse, 137
risk characteristics, methadone clients, chronic unemployment, 117
risk factors, drug abuse, epidemiology, 35

self-administration, cocaine, crack, cardiovascular rate, blood, subjective effects, human, 145
self-administration, 4-methylaminorex, baboon, rhesus monkey, stimulant abuse, 137
self-reported hypertension, alcohol, blood pressure, gender differences, prevention, survey research, epidemiology, 235
sex roles, drinking, drinking-related behavior, Mexico, 45
sialic acid, glycolipids, glycoproteins, ethanol, age, 29
skeletal muscle, ethanol, rats, muscle myopathy, protein synthesis, smooth muscle, protein turnover, 1
skin conductance response, methadone maintenance, polydrug abuse, 199
smoking, flavor, cigarette substitutes, tobacco, cigarettes, smoking cessation, menthol, 155
smoking cessation, flavor, cigarette substitutes, tobacco, cigarettes, smoking, menthol, 155
smooth muscle, ethanol, rats, muscle myopathy, protein synthesis, skeletal muscle, protein turnover, 1
stimulants, substitution, dependence, rats, barbiturates, depressants, antidepressants, 9
stimulant abuse, 4-methylaminorex, self-administration, baboon, rhesus monkey, 137
subjective effects, cocaine, crack, self-administration, cardiovascular rate, blood, human, 145
substance abuse, cocaine, alcoholism, liver function tests, hepatotoxicity, 169
substance abuse, HIV risk behaviour, AIDS, intravenous drug abuse, antisocial personality disorder, 39
substance use disorders, alcoholism, therapy, methods, history, clinical trials, 81
substitution, dependence, rats, barbiturates, depressants, stimulants, antidepressants, 9
survey research, alcohol, self-reported hypertension, blood pressure, gender differences, prevention, epidemiology, 235

therapy, alcoholism, substance use disorders, methods, history, clinical trials, 81
tobacco, epidemiology, youth, psychotropics, narcotics, alcohol, Egypt, 63
tobacco, flavor, cigarette substitutes, cigarettes, smoking, smoking cessation, menthol, 155
tobacco products, consumption, Nigeria, 203
trace elements, alcoholism, liver histomorphometry, mice, 195
treatment entry, alcohol treatment, alcohol problems, 93

youth, epidemiology, psychotropics, narcotics, alcohol, tobacco, Egypt, 63
